Eligibility for the severe need rate for breakfast and the higher reimbursement rate for lunch is recalculated each year beginning with the October claim. The calculation is based on the percentages listed below of free and reduced price lunches served relative to the total number of lunches served. The 2003/2004 school year will be used to determine eligibility for the fiscal year October 2005 - September 2006.

Determination of Severe Need Rate for Breakfast:

A building is eligible for the severe need rate for breakfast when:

Forty percent (40%) or more of total lunches served **in that building** in the second preceding school year, (2003/2004), were free or at a reduced price.

Determination of Additional \$0.02 for Lunch:

The entire district is eligible for the additional \$0.02 for lunch when:

Sixty percent (60%) or more of total lunches served **district wide** in the second preceding school year, (2003/2004), were free or at a reduced price.
